RE: Courtroom TrialView System from Exhibit One  
Training Session

---

The local bar was introduced to the TrialView system from Exhibit One that has been installed in the Department One and Department Two courtrooms in a training session held March 4, 2005. This is a computerized system that allows everyone in the courtroom to see the evidence at exactly the same time, enhancing the effectiveness of an attorney's presentation to the court and jury. The equipment includes a document/exhibit camera, VCR, DVD, CD, cassette tape player, and touch screen displays.

There will be another introduction and training session for the Exhibit One system on Wednesday, March 30, 2005 at 2:00 p.m. in the Department One courtroom. All attorneys who were unable to attending the training session of March 4, 2005 are encouraged to attend.

Attorneys are required to attend a training session before using the equipment in their trials.

Please call me at extension 8102 if you have any questions.
